Following on from Mr Farley's letter here is a list of websites we use in school that you can access from home and specific instructions for each site if needed.

These are not for your children to spend all day on but a selection of activities as an option. Other work is available on Class Dojo (all classes) and Google Classroom (Y3-6). They can write stories (literacyshed.com have some great story starters), make up their own maths calculations, draw, do a mini project on a topic of their choice OR READ A BOOK.

Ideally they would complete at least **3 lots of 15 mins on Lexia, and RM Easimath** each week and **15 minutes a day on Active Learn** (Bug Club)

Online resources to access at home	Rec	Y1	Y2	Y3	Y4	Y5	Y6
Lexia Learning - Reading, writing and spelling activities set at the appropriate level of learning www.lexiacore5.com			Y	Y	Y	Y	Y
Lexia - You will need a **staff email to activate** this site if you are using it for the first time l.fleet@westminster.fcat.org.uk							
RM easimaths - maths activities set at the appropriate level of learning www.rmeasimaths.com	Y	Y	Y	Y	Y	Y	Y
RM Easimaths - children will need to put in their username but after the @ it is still Claremont ie.23SamP **@ claremont**							
Google Classroom				Y	Y	Y	Y
Google classroom is where teachers can set work for children to complete online or in books provided. There are 2 ways to access this: 1. by signing in to their google account and selecting the 9 dots in the top right hand corner and select the google classroom icon 2. www.classroom.google.com
